Fashion Week Las Vegas Designers Bio's and Runway Lineup for Fashion Week

Emilse Benitez was born in Buenos Aires, Argentina. She started her fashion design education in 2000, at the age of 19, when she moved out on her own and continued studying while working as a hair stylist. After 2 years Emilse started working as fashion stylist for Javo Rocha's theater group and began working free-lance for different brands.

In 2003 Emilse finished her shoe design career and started working for head professor Silvia Barreto. She went on, while pregnant of her first son, teaching in different institutes and in Buenos Aires University (U.B.A.) for head professor Jorge Moragues. In 2006 after the birth of her son; she starts capacitating people for national social plans in Moreno, Buenos Aires and works for Edgardo Mercado, choreographer and dancer for two of his plays.

In 2008 Emilse finishes her Fashion Design education and in 2009 she starts her own brand called "Ramona Cardozo", in association with Cecilia Ciarlantini. After two years later she ends her association with "Ramona Cardozo" and starts working with friend and colleague Agustina Troyer for the rock band Babasonicos. In 2012 Emilse starts her new brand "Benitez Emilse"; in August she was chosen as emerging designer in C.M.D.

(Metropolitan Design Center) and shows her summer collection in BAFWeek (Buenos Aires Fashion Week). Today she is head teacher in Clothing production techniques and teacher of shoe design, both for head professor Silvia Barreto in U.B.A. and working next to Agustina Troyer on a mini collection for Ona Saez (major clothing brand).

Aerithe by Sharlenne Chen – California

Sharlenne Chen has had a passion of designing ever since she was twelve. Knowing that she wanted to be a Fashion Designer, she studied the different aspects in the field of fashion design at the Fashion Institute of Design and Merchandising. Upon graduating, she learned the art of garment production in various fashion companies. In the past eight years, she has also found a passion for pattern making and sewing. It is now the time to put all the skills she has learned into creating a full collection and presenting the world her point of view.

AERITHE's designs are elegant, sophisticated, and sexy. The designs bring out the beautiful shapes of a woman's body. Sharlenne Chen incorporates inspirations from nature, music, and even automobile design. With Sharlenne nothing is sacred. Daydreams and everyday experiences end up finding a way into her designs.

The Blue Room by Noora Alharthi- Saudi Arabia

My family have had a great influence on me, and have encouraged my interest in everything creative. I have an awareness of the fashion industry as my father would take me to his factories. There I was inspired by the designs for Saudi Airlines, he would show me the collar swatches, designs and brocades. I was interested in how they were constructed, the shape and the form of the pilots and flight attendants.

I'm at the moment studying Fashion Design in Saudi, before that I was studying in Liverpool and studied BTEC National diploma. I learnt how to design and furthered my sewing machine skills. I also studied Fashion Design Diploma in West London College and I enjoyed drawing, designing, manipulating at the stand, sewing and fashion illustration.

I am good at working with a group, organised, imaginative and determined. I am curious about new things in fashion. I love meandering around, window shopping and look deeply to the quality of fabrics and feel them. I admire the designers who event and create new ideas of clothes, I just want to spend the whole day staring at everything. Such as the colors, the designs, the fabrics, the details, etc.

Living abroad alone and away from home was such a hard thing. But that has taught me how to be independent, organised and it help build my confidence.

I am determined to graduate with a Fashion Degree. I want to be involved with the Fashion industry and live in the fashion atmosphere. This is the one and only dream I want to achieve.

Rathenart by Rebecca Brady- Australia

Since her first exhibition at the Foyer Gallery in 1997, Rebecca has continued to create and exhibit works including exhibitions at Penrith Regional Gallery, Tap Gallery, Darlinghurst, Art Moment Gallery, Bondi, MLC Gallery, Ultimo and Sydney Art 09 at the Royal Hall of Industries, Moore Park and more recently at Fairfield City Museum and Gallery.

Rebecca is now establishing herself as a designer, fusing art and fashion together. Her first range from her collection Rathenart was launched for summer 2011. "Placing your heart and soul into your work is one thing and seeing it hanging in someone's house is amazing. Taking art from the wall to the female form now completes my creative desire as an artist for a third dimension".

Rathenart Designs does not follow trends. They set their own. All fabrics are designed and printed from original art and fashioned into High End/ Couture to Ready to Wear fashion forward pieces. Rathenart Designs releases limited editions in each style to confirm quality, originality and runway ready style. The Rathenart woman is original, confident and flirty. With the ability to create unique styles for the individual and showcase their own personality, wearable art is setting new trends. Follow the journey from the palette to runway ready style. This is where art meets fashion. Follow the journey from the palette to runway ready style. This is where art meets fashion.

Knaughty Kouture by Inell Wilson – Nevada

Inell Wilson was born in Elizabeth City, NC to two wonderfully skilled parents, who inspired and sparked her creativity at an early age. Her father earned an engineering degree and was always building something. Whereas, her mother liked to sew quilts and blankets on the weekends. Inell enjoyed helping her mother sew her blankets. She thought it was so fascinating to be able to create something from nothing! Like most young girls, Inell gravitated to making clothes for her dolls. However, her "passion for fashion" was not piqued until her early twenties; while working in retail for five years. Inell began to dream of becoming a designer one day. It was merely just a dream. Then one day she and a childhood friend were comparing their swimwear, and they began to take a closer look at the work that was required to create one. They realized how easy it seemed to create and sew. Soon thereafter, Inell began to create her own designs. People started to take notice of her designs and began requesting her to sew swimwear for them. Upon gaining more exposure for her swimwear items, her orders began to roll in! Before she knew it, she had turned a simple hobby into a business venture! Inell Wilson is proud to introduce her Athena Kollection this spring 2013! This collection has very unique styles that range from conceit to modest. All beautiful, all elegant, with an added touch of sophistication, contouring to fit every curve! Indulge yourself into The Athena Kollection, and let Knaughty Kouture, kouture your body!

Dawn Sunflower – California

From the outset, Dawn Sunflower has been known for her unique, classic, and elegant styles. Her 1st "R-T-W" collection was inspired by "Day and Night" inside a single moment. Delicate fabrics such as velvet, wool blend and others fabrics are mixed to create a black and white contrast single piece garments, which embody are simplicity and class. The search for soulfulness and sensitivity in the collections has evolved into a thoughtful and complex sensibility in all garments and accessories.

F. Wilson Designs, Designer Fritz Botha – South Africa

It is very seldom that one designer’s vision so fully compliments another - Fritz is the younger brother of the F Wilson pair who has an eccentric flavor and an energy that is unstoppable and that definitely translates into the designs the duo works on. Fritz has obtained his diploma in fashion designing from Damlin College although he will always say he learnt everything he knows from working with Johan.

Fritz is happiest and most inspired when he is left to work uninterrupted in his creative bubble with his IPod playing Celine Dion.

Fritz's most redeeming talent is to ruche and breath movement into any fabric he lays his hands on. When a dress is complete in Fritz's eyes there will not be anything plain about it or any easy way to replicate it.

Fritz will never let someone leave the studio unsatisfied or turn any idea aside.

Johan

It all began in an apartment with one rickety sewing machine... Johan has had to work for everything he has become, what impresses him most is hard work and dedication from those around him.

Johan is inspired by everything tangible or imaginable; any theme will hold an element of beauty to him. Johan can see a pattern mapping itself out on a piece of fabric and can envision a dress and color to celebrate any women's figure and complexion without having to blink.

Although Johan has had no formal training himself it makes him happy to pass on his vast expanse of self taught knowledge, Fritz is the success story of his amazing talent of patience and willingness to help. Johan has recently started a fashion designing school with in-industry training to give others the platform he never had.

Nothing is too much to ask Johan – he will set out on any adventure to make someone's dreams come true.

Hazel Gonzalez Jewelry – Costa Rica

Born in San Jose Costa Rica on 25 March, since childhood she was a design lover, during high school she designed her own clothes, when she wanted to study at the university, any university offered design, so she decided to study tourism, administration and marketing, has worked in these areas. She is married and has two children, but it was not until 3 years ago when decided to make a stop and think about her dreams. And

remembered the deepest dreams of her heart.

It was a time of much reflection, prayer and rediscovery, because the road was not easy. She had to sacrifice family time, find money, but most remain steadfast in what she really wanted. The first piece she makes was very bad but their children were who motivated not to give up her dream. She decided to start jewelry studies design in a small school then moved to a larger one and from the start and had sketches of 20 pieces for her collections. She took advantage of every travel within Costa Rica to seek her inspiration and she makes unique pieces, autochthonous, reflecting something of the beauty of Costa Rica. Recently she began her company: Metamorphosis, intends to form an association of jewelry designers in the country. She really wants to be an inspiration for people to do what they really love, and also to have faith in them.

Rory Castillo Designs - California

Rory Castillo's fascination with fashion design and his love for the silver screen began at

an early age. His father named him after the legendary Hollywood leading man, Rory Calhoun. Many of Castillo's warmest memories are of enjoying films with his father – from Mexico's Golden Age of Cinema and Hollywood's popular classics. While his namesake wooed such beauties as Betty Grable and Marilyn Monroe, Rory was building his deep appreciation for the movies and high fashion.

As a child, Rory was the go-to kid in his neighborhood for Halloween costumes. He continued using his artistic skills throughout his schooling. Upon graduating high school, Castillo joined the military. A three-year tour of duty in the Army took him to Europe. While stationed in Germany, Rory enjoyed traveling throughout Europe; visiting Spain, Italy, England, and France. He studied the historical fashions on display at The Albert and Victoria Museum in London, the Louvre in Paris, and the Prado in Madrid, which added to his appreciation of fashion as art. Castillo lived in Alicante, Spain studying the art of paper maché and designing glamorous costume creations inspired by his Spanish roots.

Returning to Sacramento, Castillo became involved with charitable events, showcasing his designs for fashion shows, gallery openings, and black-tie balls. Soon, the siren's allure of the silver screen pulled him towards the bright lights of Hollywood. In Los Angeles, Rory quickly made a name for himself, creating magnificent ball gowns for starlets and movie producers. He worked on six feature films and four shorts, including "Forgotten Voices," based on a story he developed. Rory showed his designs in fashion shows at many of Los Angeles' most prestigious venues, including the Regal Biltmore Hotel, Paramount Studios, the Scientology Center, Almansor Court Country Club, the Mayan Theater, the El Rey Theater, the Hyatt Regency Hotel, and the historic Hollywood Athletic Club. He was a sought-after guest on numerous Spanish-language television shows, showing his intricate costume designs for the stage and runway.

Castillo worked with high profile entertainers such as Vicki Carr on the PBS special "Memories/Memorias" and Rosie Hamlin of "Angel Baby" fame for the *Red, White and Rock Concert*. Yolanda Adams, Brandy, Golden Brooks, World Music singer Maria DeBarros, Guillermina Quiroga of the Argentine Tango Troup Forever Tango, and the L.A. chanteuse Rebekah del Rio have all performed or are currently wearing Rory's original creations for their stage performances.

Lindsay Lou – Australia

Lindsay Lou designs especially for the confident, playful and spontaneous woman who enjoys standing out from the crowd and who likes to allow her individuality to shine through. One of her dreams is to share her love and passion for fashion design globally.

Her designs embody uniqueness, with an exaggerated retro flair and a classic glamour with an ability to transform a little black dress into an individual creation. Every piece is made with love, utilizing cotton, silk and jersey materials to create the perfect marriage of fabrics and styles. As versatile as they are stylish, you can wow your girlfriends at a casual luncheon, or you can steal the spotlight whilst painting the town red. Dedicated to comfort, Lindsay Lou designs fit like a glove, allowing your inner-light to shine.

Lindsay Lou launched her first collection in Australia in May 2012 entitled 'On the Prowl', which was such a success that Lindsay Lou has been inspired to prepare her next collection.

Mens Collection:

Robert Pointer for "Peakfine" from Germany

Creativity was always very important to me, no matter if it was painting, producing music and working as a Dj or designing and sewing my own cloth, but as far as I had never any school-education in this field all of that took place in my spare-time.

Therefore I completed a technical study as industrial engineer, but after 3 years of working experience in international product- and project management for a supplier of brake-systems for trucks I realized that I couldn't go on like this. It

was for sure one of the most difficult and painful decision I have ever taken in my entire life:

I simply couldn't resist any longer my desire to follow my heart to become a fashion-designer.

So I quit my job at the age of 30 and applied at ESMOD, International School of Fashion, Munich and studied fashion-design and pattern-making for 3 years and never regret that decision for a single moment.

Already during the 2nd year I won a contest of PLAYBOY, Germany designing a collection for the online-shop and became '3rd National Winner' at the TRIUMPH INSPIRATION AWARD 2008 for the creation and realization of lingerie set.

I graduated in 2009 and received the 'Prix Modelisme Homme'-award for the best mens-collection.

After school I started my own fashion-label 'peakfine', a sophisticated casual-chic mens-collection with individual details (www.peakfine.com) and sold a first collection in limited quantities in Germany.

Right now I am working for a German sport-retailer with 19 stores in Germany in design and product-management, responsible for their own brand in fitness- and yoga-wear, doing everything from trend-research, colors, design & graphics of the collection, price-negotiations and meetings with suppliers in Turkey/ India/ China, to checking fabrics and approval of samples.

Besides I am still working on my own brand 'peakfine', hoping to launch it successfully in near future and make my dreams come true.

ABOUT THE VENUE

LAS VEGAS' MOST EXTREME ADVENTURE TAKES FLIGHT

Enjoy the adventure-of-a-lifetime with Sky Combat Ace (SCA) as you suit up for a wild aerobatic flight of non-stop spins, barrel rolls, hammerheads and loops high above Las Vegas. With the glittering Strip and desert mountains as a backdrop, SCA is the nation's ultimate flight experience.

Guided by an expert aerobatic pilot, take the controls and live out your "Iceman" or "Maverick" fantasies with the Top Gun package; or take on the extreme (and aptly named) Adrenaline Rush, combining world-class aerobatics with air-to-air dog fights. Not for you? Ditch the tricks and enjoy a sightseeing adventure in an open-cockpit biplane for incomparable views of the Hoover Dam and Red Rock Mountains, or a night flight over the bright city lights.

Pull down your goggles and step into SCA's brand new Extra 330LC; or turn back the clock and become a WWII airman in SCA's authentic T-6 Texan Warbird; or fly like the Red Baron in the Waco Classic YMF-5C open cockpit biplane.

SCA delivers something for everyone with five types of experiences, whether for a first-time flight fanatic or advanced aviator:

- **Aerobatic Flights** – Star in your very own air show! Become wingman to one of SCA's 10 professional fighter pilots and learn the art of basic flight maneuvering.

You fly the plane under the supervision of SCA's pilots to execute loops, rolls, hammerheads and spins.

- **Aerial Dogfighting** – Reenact your favorite “Top Gun” moment as you chase your opponent through the Nevada skies like a real fighter pilot. Feel the thrill of “the kill” as you aim and shoot your adversary using SCA’s special effects. If your aim is good, you’ll get instantaneous feedback as smoke flows from your opponent’s plane. Fight’s on!
- **Multi-Day Adventures** – Can’t choose just one? Indulge your need for speed and break up your SCA experience over a few days time span. Or, build your skills by reattempting the same package the next day!
- **Sightseeing Packages** – In an open-cockpit biplane fit for two (plus a pilot), enjoy aerial views of the Mojave Desert while flying over Las Vegas landmarks such as the Hoover Dam, Red Rock State Park, and the world-famous Las Vegas Strip (night flight options also available).
- **Spectator Packages** – Invite your friends to watch the action in SCA’s non-aerobatic aircraft, where they can take in your incredible experience from an unrivaled vantage point only a short distance away.

ABOUT SKY COMBAT ACE:

Sky Combat Ace (SCA) offers Nevada’s only civilian aerial combat training center. SCA pairs you up with actual fighter pilots to learn the art of basic fighter maneuvering. Under the supervision of SCA’s highly trained fighter pilot instructors, you are the one at the controls, you are the one squeezing the trigger, and you get the satisfaction of scoring a hit on your opponent. SCA has something for everyone with five different types of flights including sightseeing tours and spectator flights in addition to aerobatic, aerial dogfighting, and multi-day adventures. Safety is the top priority at Sky Combat Ace; SCA pilots have amassed a perfect safety record with zero accidents or incidents. All of the pilots are chosen for their experience and unique qualifications that make them the best in the business.

Official FWLV After Party and Closing Party for Fashion Week Las Vegas

MARQUEE Nightclub & Dayclub at The Cosmopolitan of Las Vegas

A destination for the world's premier music talent with an impressive roster of international DJ residencies, Marquee Nightclub & Dayclub at The Cosmopolitan of Las Vegas brings international entertainment to one multi-level setting.

From the forces behind such New York and Las Vegas destinations as TAO and LAVO, Marquee changed the nightlife landscape with its 2011 New Year's opening. The monumental 60,000 square-foot, David Rockwell-designed venue encompasses seven bars that transition patrons between three distinct spaces and variant musical experiences.

Drawing focus in the Main Room is a 40 foot LED DJ booth and projection stage which is surrounded by plush coliseum-style banquette seating and two dance floors. Overlooking the spectacular main floor is a lavish, Library style room offering an intimate lounge experience accentuated by a fireplace, a billiard table and vintage books whose contents delve into captivating Las Vegas history ranging from gambling to showgirls. Venturing further into the venue, club-goers encounter the lower level Boom Box Room, an intimate boite with strip views and separate DJ, with a state-of-the-art sound system.
